EDUCATION

**BSc (Hons) in Information Technology
Specializing in Cyber Security
Technology(SLIIT)**

Status: Reading

**GCE Advanced Level Examination
Wesley College, Colombo 09**
Common Stream - 2023

**GCE Ordinary Level Examination
Wesley College, Colombo 09**
2020

SKILLS

Technical Skills

- Java | C | Python | HTML | CSS|MySQL
- Networking | Wireshark | Cyber Security
- Linux | Git & GitHub | Machine Learning

Soft Skill

- Leadership | Team Work | Problem Solving
- Analytic Thinking | Communication

PROFILE

A Motivated Cyber Security Undergraduate who is technically skilled in Python, Java, and C programming languages. Proven capability in Defensive Security with hands-on experience in detecting phishing URLs and extensive research in OSINT. Skilled in operating Ubuntu Linux environment and conducting forensic analysis on network with Wireshark and SIEM tools. Passionate creative problem solver.

PROJECT

Secure Client-Server Authentication System Feb 2026 – Apr 2026

- Tech Stack: C, Python, Linux System Programming, SHA-512 Hashing
- Engineered a concurrent C server using multi-processing (fork) and a custom TCP application protocol featuring SHA-512 salted hashing, session persistence, and defensive rate-limiting to mitigate brute-force and DoS attacks.

Post-Quantum Cryptography Research Feb 2026 – Mar 2026

- Conducted an in-depth study on emerging cryptographic threats and future developments
- Produced a 5,000-word IEEE-standard report and a 10-minute video presentation explaining PQC evolution and security countermeasures.

Carbon Finance Recommender System Sep 2025- Feb 2026

- Tech Stack: Python, Gradio, Scikit-learn, Pandas, Machine Learning
- Build a ML tool to deliver a tailored carbon financing scheme for construction organisations.

Heart Disease Prediction System Jul 2025 - Nov 2025

- Tech Stack: Python, Scikit-learn, NumPy, Pandas
- Build a ML tool to identify cardiovascular risks based on clinical health.

Property Manegement System Jul 2025- Nov 2025

- Tech Stack: Java, JSP/Servlets,HTML,CSS, MySQL
- Collaborated in 6-member team design and developing a full - stack web application.Developed CRUD and server-side functions to handle database and CRUD operations

Office Network Design and Analysis (DCN) Jul 2024- Dec 2024

- Tech Stack: Networking, Wireshark
- Desinged and analyzed a simulated office network.
- Wireshark was used to capture and analyze and understand behaviour.

IoT-Based Home Automation System Feb 2024- May 2024

- Technologies and Tools: Arduino(C++), Sensors Developed a system using motion sensors and security key pad for a home automation system. .
